Excise Commissioner to Investigate Clubs Run as Saloon Annexes.

The saloon at No. 2301 Chestnut street is known as Mike Churchill's Place, al-though the license is in the name of W. W. Williams. Mr. Churchill, who is bartender, says he sold the saloon several months ago to Mr. Williams. Next to the saloon, at No. 2303 Chestnut street, is what is styled

No. 2303 Chestnut street, is what is styled the Suburban Club.

"Mr. Williams has no club in his saloon." said Mr. Churchill last night. "He controls the ertire premises at 2301 Chastnut street, while Professor Edward Hendricks controls the entire premises at No. 2303 Chestnut street. It isn't any club, though. It used to be called the Imperial Dancing Academy. Now it's called the Suburban Club. Mr. Williams has nothing to do with the club."

After tendering Mr. Lehmann's opinion for publication, Mr. Seibert announced that the attorney's views and conclusions would hereafter serve as his guide for conduct of affairs of the excise office, and that, while he would be fair and impartial, he would enforce the regulations and laws strictly. The Commissioner's crusade to compel fulfillment of conditions will be inaugurated to-morrow and will be continued indefinitely. It will be resumed periodically, as may appear prudent, inquiries will be made to-morrow, Saturday, Monday and Tuesday mornings on charges for violations of the early-morning closing law.

Mr. Lehmann classed saloons, with sham clubs as adjuncts, as disorderly establishments, according to the dramshop law of the State. He stated that the Excise Commissioner has power to define conditions for conduct of saloons, and to refuse and to revoke licenses. The Williams case will be the first in relation to saloon clubs, or such clubs run in adjoining buildings.

Marshal Nace of Webster Groves thought yesterday morning that he had captured the famous "wild" woman who has been exciting people in St. Louis County for the last month. Early in the morning Station Agent Wachtel of the Frisco notified him that the woman was at his house. Mr. Nace took the suspect to the Webster jail, where she gave the name of Mary Ing to make her way from St. Louis to her home in Sullivan, Mo., and did not have enough money to buy a ticket. She declared she would make it hot for the Webster authorities if they detained her. She was then released and boarded a car for Meramec Highlands. Miss Rauscher was about 30 years old and said she lived with her father. In some respects she answered the description of the wild woman. She refused to give an account of herself for the last month.

Grant Moore, a megro, was arrested in Kirkwood yesterday afternoon by Marshal Secrest on a charge of robbing a dwelling house. The arrest was made at the request of the St. Louis police, who alleged that Moore robbed the house of D. W. Ellington at No. 5599 Manchester avenue last Monday morning between 6 and 9 o'clock. A trunk was broken open and a watch and Colt's revolver stolen. Ellington went to Kirkwood and said he would apply for a warrant this morning. Moore denies the charge.

There Were Only Eighty-Five Commitments to the Hawaiian Settlements in 1900.

Washington, Oct. 16.-There are now 909 lepers and 164 clean persons at the Molokai leper settlements in Hawali, according to a report just received from Chief Quarantine Officer Cofer, in charge of the marine hos-pital work in Hawaii. All these are housed, fed, clothed and governed for \$80,000 a year. The report praises the hopeful and cheerful way in which these poor people resign themselves to their fate, and points out that such contentment can thrive only on a comfortable mode of life and good treatment, Surgeon Cofer reports he made careful inquiries as to the chances of the infec tion of the clean people working among the lepers, and that the general opinion was that in time they would become lepers. In the last ten years, however, only ten clean residents have become lepers. The Board of Health has initiated a new system for preventing the lepers and their relatives and friends from embracing and kissing each other by marching the visitors immediately from the steamer landing to a corral with a double fence. The friends are compelled to remain inside this inclosure, and the lepers gather around and talk through the bars. Visitors are permitted at any time under this system, instead of only once a year, as

formerly.

The results of known exposure to leprosy. says the report, show an uncertainty as to the chances of individual infection, which makes the disease one of the most difficult to operate against. Women are said to be less liable to it than men. The three oldest patients at the settlement arrived in 1874. 1875 and 1879, respectively.

The number of commitments to the settlements each year during the last decade, ranging from 132 in 1891 to 85 in 1890, show a gradual decrease, despite the fact that the hunt for lepers throughout the islands never before has been so vigorous.

quet to the visitors which promises to rival the now celebrated banquet of the Young Men's Republican Club of Kansas City at which Senator Fairbanks nominated National Committeeman Kerens for the United States Senate, and Kerens in turn nominated Senator Fairbanks for President in 1904. It is expected that the echoes of the coming banquet in this city will reach the White House, else, perhaps, it would never have been planned.

It will be the one mighty and, probably, final effort to convince President Roosevelt that the woods in these parts are full of Kerens-Bittinger Republicans, and that the followers of Chairman Akins are hopelessly in the minority.

The committee which has the arrangements for the coming banquet in charge is composed of W. L. Buechle, Surveyor of Customs, a McKlniey appointee who had the backing of Kerens & Co.; Doctoe C. A.
Tygart, a "Silk Stocking," who was made City Physician under the Combe-Stuber harmony agreement; E. M.
